Guida all'eliminazione delle Macchie

Grasso - olio: Seguire il metodo B.

Cioccolata - caffè: Tamponare con una spugna inumidita con acqua tiepida.

Cera - candela: Asportare delicatamente la cera con un coltello smussato o una spatola. Poi utilizzare il metodo B o coprire la macchia con diversi strati di carta assorbente e applicare il ferro da stiro caldo.

Frutta: Passare una spugna inumidita con acqua fredda.

Inchiostro: Trattare con alcool seguendo le istruzioni descritte nel metodo A.

Fango: Asportare delicatamente quanto più sporco possibile con spatola. Lasciare asciugare, quindi aspirare. Se la macchia persiste, utilizzare la soluzione d'ammoniaca secondo il metodo A.

Urina - sudore: Utilizzare il metodo A, seguito dall'applicazione di una piccola quantità di detergente liquido ammoniacato.

Vomito: Asportare cautamente il vomito, tamponare con una spugna inumidita con acqua fredda e seguire le istruzioni del metodo A.

Metodi di pulizia

A - Usare detergenti a base acquosa, oppure diluire due cucchiaini d'ammoniaca in 1 litro d'acqua. Tamponare delicatamente la macchia con un panno inumidito con questa soluzione, girandolo in modo che solo la parte pulita venga a contatto con la macchia.

B - Usare solo solventi per la pulizia a secco non aggressivi, puri e privi d'acqua. Inumidire un panno con la soluzione e seguire la procedura del metodo A.

Easy stain removal guide

Grease - oil: Follow method B described below.

Chocolate - coffee: Sponge with lukewarm water.

Wax - candle: Gently scrape wax with ull knife or spatula. Use method B or cover spot with several layers of absorbent paper and warm with iron.

Fruit: Sponge with cold water.

Ballpoint pen - ink: Treat by rubbing alcohol, use method A.

Mud: Gently lift off as much as soil as possible with dull knife or spatula. Allow to dry, then vacuum. For persistent stains, use ammonia solution as described in method A.

Urine - sweat: Use method A, followed by a small amount of ammoniated liquid detergent.

Vomit: Gently lift off vomit and sponge thoroughly with water, then use method A.

Cleaning methods

A - Use only water based cleaning agents. Alternative mix 2 tablespoons of ammonia with 1 litre of water. Blot the stain gently with a cloth dampened with this solution, turning continually so that only the clean part of the cloth is in contact with the stain.

B - Use only mild, pure, water-free dry cleaning solvents. Dampen a cloth with the solution and follow the procedure described in A.
